

landrover1

Configuration:

```

-----
W-Bus version.....3.3
Device name.....L5 SH
W-Bus code.....717CC0E73F8000
Fuel type.....Diesel
Circulating pump in control idle period.....0
Heating duration limitation.....255 [min]
Factor for shortening of ventilation duration.....1/1
Device identification number.....09005946F
Dataset identification number.....09006807J06
Software identification number.....000000000
HW version.....44/04
SW version.....Friday/45/04 11.14
SW version (EEPROM).....Friday/45/04 11.14
Date of manufacture control unit.....18.11.04
Date of manufacture heater.....09.12.04
Customer identification number.....JEC500790
Serial number.....0000654603
Test signature.....5741
Minimum voltage threshold.....10 [V]
Maximum voltage threshold.....16 [V]
Delay for supply voltage min. detection.....20 [s]
Delay for supply voltage max. detection.....6 [s]

```

Operating data:

```

-----
Working hours.....22:28 [h:m]
Operating hours.....5381:15 [h:m]
Start count.....16351
Burning duration PH 1..33%.....0:00 [h:m]
Burning duration PH 34..66%.....0:00 [h:m]
Burning duration PH 67..100%.....0:00 [h:m]
Burning duration PH >100%.....0:00 [h:m]
Burning duration SH 1..33%.....0:00 [h:m]
Burning duration SH 34..66%.....0:00 [h:m]
Burning duration SH 67..100%.....0:00 [h:m]
Burning duration SH >100%.....0:00 [h:m]
Working duration PH.....1:39 [h:m]
Working duration SH.....180:42 [h:m]
Start counter PH.....13
Start counter SH.....641
Ventilation duration.....0:00 [h:m]

```

Error:

```

-----
Fault 1.....No start
State of fault.....stored, actual
Code.....02h
Counter.....1
Temperature.....14 [°C]
Operating state.....Glowing 61
Voltage.....12,07 [V]
Operating hour counter.....5381:14 [h:m]

```
